This site is located 2.6 nm northwest of Andreapol, USSR, 190 nm west-northwest of Moscow. It is one of ten sites of similar function utilized for air defense of Moscow. The site is covered by KEYHOLE photography of [REDACTED]

[REDACTED] It consists of an operations area and a nearby support area. No changes in facilities are noted between [REDACTED]

The operations area consists of seven radar positions. The design and arrangement of these radar positions resembles the design and arrangement of positions at the Temnikov radar site, as reported in PIC/R-4/60 from [REDACTED] photography. The Andreapol radar positions appear capable of supporting GAGE,

PATTY CAKE, STONE CAKE, and BAR LOCK radars. An unidentified activity is located adjacent to the south side of the operations area. The operations area also contains a control bunker, communications antennas, and support buildings. The support area contains approximately 40 buildings for administration, housing, and storage.
